— Overview of GRO Budget 2015/16
        * Motion to change the name from social programming to student programming   (second)
        Discussion: What are the control mechanisms if we just change the name? Approval   is lacking in terms of GRO budget; different

budget situation this year: we'll   spend everything
        Suggestions: instead of having chairs coming every single time
but maybe draft   budget of how much money each chair might
think they'd spend (second that   suggestion); split up in a
different way: chairs come in and say how much money   they need
and then we estimate how much money this pot should have; give
        suggestions to advocacy chairs and social chairs, open to
floating chairs; if   yearn-long positions they could
present quarterly/semesterly budget proposals
        allocate into bucket called:
        * Motion to approve renaming (no second)
        * Motion to rename to Student Programming. Social chairs,
advocacy chairs, and   floating chairs can make use of this
specific budget which depends on quarterly   approval by the GC
(vote). (second)
        Decision: Motion approved.

* Motion to adjourn the meeting
Meeting adjourned.
