TIPS FOR USE

**Lifestyles
Ultra Thin**

Reservoir tip, flared shape, thin and smooth texture, standard size.

Have less reduction in pleasure and sensation.

**Lifestyles
Ultra
Lubricated**

Reservoir tip, extra lubricated, smooth texture, standard size.

Have extra lubricant to make sexual activity more pleasurable and comfortable.

**Lifestyles
Ultra
Sensitive
Non-
Lubricated**

Extra head room, contoured condom shape, smooth texture, standard size.

Non-lubricated condoms are best for oral sex on a penis.

**Lifestyles
Kyng**

Reservoir tip, smooth texture, larger size.

Larger condoms should be use for those that feel standard sizes are painfully tight, break easily, or are not able to feel pleasure when using.

TIPS FOR USE

**Lifestyles
Non-Latex**

Straight condom shape, made with polyisoprene, smooth material, standard size.

Non-latex condoms are great for those that are allergic or get irritated from latex condoms.

**Trust
Dental Dam**

Flavored, square sheet of latex.

Dental dams are for oral sex on a vulva or anus. Make sure to have the flavor side facing the mouth.

**ID Glide
Lubricant**

Water-based lubricant

Water-based lubricants can be used with latex, polyisoprene, and polyurethane condoms, dental dams, sex toys, or gloves.

**ID
Millenium
Lubricant**

Silicone-based lubricant

Silicone-based lubricants are good for sexual activity with lots of friction or for shower sex/water play. Do not use with silicone sex toys.
