Don't let your laundry get the best of you…eSuds™ can help!

Is it done yet?!

We understand that doing your laundry is a hassle. eSuds is an exciting, innovative online laundry system designed to get you out of the laundry room and on with your life.

With eSuds, you have the ability to:

- Go online to check the availability of washers and dryers in the laundry room.
- Use your Student ID to start your wash and dry cycles.
- Receive an email alerting you that your wash and dry cycles are complete.

Know before you go.

eSuds gives you access to an interactive website with a "virtual view" of the laundry room from your own PC. Each washer and dryer is marked as either "available" or "in use". If equipment is "in-use" the estimated remaining cycle time is displayed.

Stop Searching.

No coins required- and that means you can stop digging for change. Washers and dryers can be activated with your Student ID.

email me!

You can choose to receive email notification when your laundry is done, or have a text message sent to your cell phone or PDA.

Check out the eSuds website at http://jhu.esuds.net
