Build your own 3D printer from the ground up and learn 3D printing fundamentals over the course of two days. Workshop will be led by the design team from Buildclass.

All levels of experience welcome. Open to JHU students and JHU community.

Buildclass will take place during intersession on January 20th, 21st and 22nd at the DMC.

Register at buildclass.org/jhuDMC or contact hello@buildclass.org.
