Directions to 14 Shriver:
Standing in the quad in front of Shriver Hall (#9), turn left and follow the path. When you curve around to the service road behind the building, pass the first blacktop path (on your right) and take the next right. Then, walk down the cement stairs to enter the building through the double doors. Pass through a second set of double doors and you will find the NFP office door on the left (before the vending machines).
