Funding Opportunities

- Consult with a SCAA advisor early
- Many established opportunities come with funding to support students during the summer
- For unpaid (or under-paid) internships, research, clinical and volunteer experiences, the Life Design Lab and Center for Student Success run a Summer Scholarship Program
- More experienced researchers with a clear project can apply for research grants through HOUR or URSCA
- National Fellowships – in partnership with the Global Education Office – can allow you to pursue opportunities around the world

Student Experiences

Why is the summer an important time for a student's career development?

Thinking about your time at JHU, what barriers exist for FLI students to participate in summer experiences?

How have your summer experiences impacted your current career path?

What advice do you have for families as they support their student in this process?
