READY for the MCAT?

Johns Hopkins University Test Prep class is your partner in success!

Offered in January 2013 Intersession

Getting ready to take the Medical College Admissions Test? Familiarizing yourself with the MCAT under professional guidance makes it less intimidating and builds confidence. Created in cooperation with the Johns Hopkins Pre-Professional Advising Office, this course is designed to familiarize students with the test: covering structure, content, and test-taking strategies.

You can depend upon these program benefits:

Outstanding Faculty. Our exceptional instructors include academically and professionally accomplished practitioners who combine strong teaching skills with specialty expertise.

Comprehensiveness. Covers physics, general and organic chemistry, biochemistry, biology, writing skills, verbal reasoning, test-taking skills and strategies, and three practice tests.

Flexibility. Designed to meet the needs of individual students. Offered on weekday evenings and weekend mornings during January intersession.

Affordability. Our MCAT Prep Course can be completed for under $1,000 tuition.

Reaching your goals
Are you applying to medical school? Get the score you want! This non-credit course will help prepare you for the Medical College Admission Test (MCAT). Created in cooperation with the Johns Hopkins Office of Pre-Professional Advising and the Post-Baccalaureate PreMedical Studies Program, this course uses materials developed by the American Association of Medical Colleges and Exam Krackers and is taught by academically and professionally accomplished practitioners, who combine strong teaching skills with specialty expertise.

Course Description
This course familiarizes students with the structure of the test, introducing and reinforcing test-taking strategies and skills. Class sessions provide a comprehensive review of the major content areas covered in the test—physics, general chemistry, organic chemistry, biochemistry, biology, writing skills, and verbal reasoning. Students have the opportunity to take three practice tests, increasing their confidence and efficiency. The course is intensive, meeting for three hours weekday evenings and occasional Saturday mornings. It runs January 3 through 30. A detailed schedule is posted online.
