Pre-Health Ideas During COVID-19

Please note: we are unable to vet each opportunity and idea listed below. Therefore, do not complete and submit forms requesting additional personal information without first verifying the authenticity of the organization listed. Requests for additional information or follow-up inquiries should be sent directly to the organization.

Focus Locally

● Be an active, helpful member of your home community. Donate to a food bank, blood bank, or give funds to nonprofit organizations that are helping others during this pandemic. Volunteer to cover childcare needs for neighbors or to check in (by phone/from a distance) on the elderly. If you’re part of a religious community, see if there are ways that you can provide support through them. Check with organizations where you have volunteered in the past to see if you can step back into previous roles.

● You can sew masks for Johns Hopkins Hospital by following the template provided [here](#). Once you are finished, you can drop your masks off at a box on the sidewalk near the McElderry Street Garage exit: 601 N. Caroline St., Baltimore, MD 21287.

● You can drive supplies to other Hopkins Hospitals. You would not have to use your own vehicle. [Sign up here](#)

● You can construct face shields at the Johns Hopkins Consolidated Services Center. Volunteers are asked to come on site for 4-hour shifts to assist in constructing face fields—cutting with scissors and razor blades, hot gluing, and stapling. [Sign up here](#)

● Use [idealist.org](#) or [volunteermatch.org](#) to seek other local options, but be ready for slow responses.

● Idealist article: [Nine ways to help others during the coronavirus pandemic](#)
Pre-Health Ideas During COVID-19

Clinical Engagement

● Your health and safety are the first priorities, so do not engage in experiences unless policies and procedures are in place to ensure a safe environment with protective equipment.

● If unable to physically go to a clinical setting, physicians who are conducting telemedicine appointments might be willing to have you join them virtually.

● Interview health professionals to learn more about their jobs, their backgrounds, their interests, and to gain general insight and knowledge about the field.

Dental-

● Free courses-
  o UPenn- https://www.coursera.org/learn/dental-medicine-penn
  o Michigan State- https://www.coursera.org/learn/dentistry101

Medical-

● VirtualShadowing.com

● Attend lectures of medical experts around the U.S.- WebShadowers-

● Shadow Dr. Naqvi on Youtube- Observe patient case reports, become familiar with medical terminology and ask questions

● Telescribing

● The Hospice Foundation of America

● University of Colorado- Virtual Emergency Medicine Virtual Emergency Medicine Course

● Take a medical assistance online training course at Advanced Clinical Training for Pre-Health Students

● Guides, videos, and tutorials currently hosted on BME resource pages in the JHU library system, but viewable for all students.

Pre-Health Ideas During COVID-19

Virtual Volunteering

- JHU’s Center for Social Concern.
- Volunteer virtually in 25 different ways with Operation Warm.
- Provide online tutoring to “bridge gaps in language, higher education, and professional skills training for conflict-affected individuals” with Paper-airplanes.org.
- Make a real impact in 9 different ways with Dosomething.org.
- Volunteer to be an Online Ambassador with Ark of Hope for Children.
- Give well-deserved Treats for Troops through Soldiers Angels Treats for Troops.
- Be an online emotional support person at 7 Cups.
- Help kids in need when you organize an online fundraiser for Operation Warm.
- Make a global difference with the United Nations.
- Lend your eyes to solve tasks for blind and low vision people. Visit Be My Eyes.
- Sew emotional support blankets for Binky Patrol.
- Proofread ebooks for Project Gutenberg.
- Record audiobooks for Librivox.
- Transcribe historical documents for the Smithsonian.
- Send a card, letter or note once a week to someone undergoing chemotherapy. Apply at Chemo Angels.
- Provide learning and encouragement to children around the world via Skype and the Granny Cloud website.
- Test, evaluate or develop elements of the National Park Service’s online presence.
- Raise money in a virtual world with The American Cancer Society and Second Life.
- Develop video games to help App to Succeed teach youth in need how to make good financial decisions.
- Train others in technology to help overcome poverty with Right Here at Home.
Pre-Health Ideas During COVID-19

- Share social media posts and important announcements for Operation Warm. Email Mary Ann.
- Look at satellite images of storm and help researchers predict cyclone behavior with Cyclone Center.
- Find different ways to help your community at Serve.gov.
- Find virtual volunteer opportunities at AllForGood.
- Provide needed support for people in crisis with the Suicide Prevention Line.
- Answer texts from people in crisis, bringing them from a hot moment to a cool calm through active listening, collaborative problem solving, and safety planning with CrisisTextLine.
- Make a different in the world with United Nations Virtual Volunteering.
- Use your computers or phones to help researchers sift through pictures, information and documents with Amnesty International.
- Translate millions of words, manage projects, design web pages, and fundraise with TranslatorsWithoutBorders.
- Look into the volunteer National Medical reserves Corps branch near you.
- Donate blood and volunteer to help the Red Cross address blood delivery and donation needs in your community; remote volunteering options exist for those at high risk.
- Google terms like ‘telescribe,’ ‘telemedicine scribe,’ or ‘telehealth scribe’ and look at websites for major scribe recruiting companies, such as Scribe America, ScribeKick.
- Acquire global health care experience through Foundation for International Medical Relief in Children.
- Take a medical assistance online training course at Advanced Clinical Training for Pre-Health Students.
- Assist community partners with various projects with the AARNP.
