Pre-Health Ideas During COVID-19

Please note: we are unable to vet each opportunity and idea listed below. Therefore, please do not complete and submit forms requesting personal information without first verifying the authenticity of the organization listed. Requests for additional information or follow-up inquiries should be sent directly to the organization.

Focus Locally

- Be an active, helpful member of your home community. Donate to a food bank, blood bank, or give funds to nonprofit organizations that are helping others during this pandemic. Volunteer to cover childcare needs for neighbors or to check in (by phone/from a distance) on the elderly. If you’re part of a religious community, see if there are ways that you can provide support through them. Check with organizations where you have volunteered in the past to see if you can step back into previous roles.

- You can sew masks for Johns Hopkins Hospital by following the template provided [here](https://example.com). Once you are finished, you can drop your masks off at a box on the sidewalk near the McElderry Street Garage exit: 601 N. Caroline St., Baltimore, MD 21287.

- You can drive supplies to other Hopkins Hospitals. You would not have to use your own vehicle. [Sign up here!](https://example.com)

- You can construct face shields at the Johns Hopkins Consolidated Services Center. Volunteers are asked to come on site for 4-hour shifts to assist in constructing face fields—cutting with scissors and razor blades, hot gluing, and stapling. [Sign up here!](https://example.com)

- Use [idealist.org](https://www.idealist.org), [volunteermatch.org](https://www.volunteermatch.org), or [omprakash.org](https://omprakash.org) to seek other local options, but be ready for slow responses.

- Idealist article: [Nine ways to help others during the coronavirus pandemic](https://www.idealist.org/idealist/article/9-ways-to-help-others-during-the-coronavirus-pandemic)

- Donate blood and volunteer to help the [Red Cross](https://www.redcross.org) address blood delivery and donation support needs in your community. (Remote volunteering options exist for those at high risk.)

- Check to see if [Meals on Wheels](https://www.mealsonthewheels.org) needs more volunteers in your community.

- Inquire whether other local organizations focused on supporting the elderly need volunteers; for example, [Caring Connections](https://www.caringconnections.org) is asking for volunteers willing to deliver groceries in NJ/PA counties to step forward.
Pre-Health Ideas During COVID-19

- Food pantries, soup kitchens, and homeless shelters in most areas are continuing to look for volunteers and have been trying to maintain social distance for their volunteers and those they serve. Feeding America can help students to find their local food pantry.

- Many chapters of the United Way have updated their volunteer opportunities to show all the local nonprofits seeking help.
Pre-Health Ideas During COVID-19

Clinical Engagement

- Your health and safety are the first priorities, so do not engage in experiences unless policies and procedures are in place to ensure a safe environment with protective equipment.

- If unable to physically go to a clinical setting, physicians who are conducting telemedicine appointments might be willing to have you join them virtually.

- Interview health professionals to learn more about their jobs, their backgrounds, their interests, and to gain general insight and knowledge about the field.

Dental-

- Free courses-
  - UPenn- https://www.coursera.org/learn/dental-medicine-penn

Medical-

- **JHH Cyber Sidekicks** - virtual volunteering program connecting patients and volunteers virtually.

- **Contact Tracing** - consider a job or volunteer activity as a contact tracer. Partners in Health is hiring contact tracers, resource coordinators, and case investigators to reach out to all contacts of COVID patients, counsel them on testing and quarantine, refer them for testing, and connect them to necessary resources.

- **University of Maryland Medical Center** – get hands on experience (in-person) interacting with patients and healthcare staff.

- **VirtualShadowing.com**

- Attend lectures of medical experts around the U.S.- **WebShadowers**.

- **Shadow Dr. Naqvi on YouTube** - Observe patient case reports, become familiar with medical terminology and ask questions.

- **Telescribing, ScribeKick**

- **The Hospice Foundation of America**

- University of Colorado- Virtual Emergency Medicine [Virtual Emergency Medicine Course](#).
Pre-Health Ideas During COVID-19

- Take a medical assistance online training course at [Advanced Clinical Training for Pre-Health Students](https://www.advancedcltrain.com).
- [PreHealthshadowing.com](https://www.prehealthshadowing.com) - gain virtual shadowing with various physicians and medical professionals.
- [Hopkins CME](https://www.hopkinscme.org) - offers grand round opportunities and various medical training courses and education presentations.
- Guides, videos, and tutorials currently hosted on BME resource pages in the JHU library system, but viewable for all students.
  - [https://guides.library.jhu.edu/biomedical/tools-and-images](https://guides.library.jhu.edu/biomedical/tools-and-images)
  - [https://guides.library.jhu.edu/biomedical/videos-and-images](https://guides.library.jhu.edu/biomedical/videos-and-images)

**Virtual Volunteering**

- JHU’s [Center for Social Concern](https://www.jhu.edu/about/community-engagement/social-concern).
- [UPchieve](https://upchieve.com) – tutor and mentor high school students across the country in various subjects.
- [School On Wheels](https://www.schoolonwheels.org) - tutor and mentor elementary to high school students living in shelters, motels, vehicles, group homes or on the streets living in Southern California.
- [The New York Academy of Sciences](https://www.nyas.org) - hosts challenges and projects, allowing students to dive into their interests in STEM. Some of the past challenges include creating an innovative way to track the coronavirus and the discovery of new energy sources.
- Tutor the children of front line workers through [Front Lines Tutoring](https://frontlinestutoring.com).
- Volunteer virtually in 25 different ways with [Operation Warm](https://www.operationwarm.org).
- Provide online tutoring to “bridge gaps in language, higher education, and professional skills training for conflict-affected individuals” with [Paper-airplanes.org](https://www.paper-airplanes.org).
- Make a real impact in 9 different ways with [Dosomething.org](https://www.dosomething.org). 
- Volunteer to be an Online Ambassador with [Ark of Hope for Children](https://www.arkofhopechildren.org).
- Give well-deserved treats for Troops through [Soldiers Angels Treats for Troops](https://soldiersangels.org).
- Be an online emotional support person at [7 Cups](https://www.7cups.com).
- Help kids in need when you organize an [online fundraiser for Operation Warm](https://www.operationwarm.org/fundraising).
- Make a global difference with the [United Nations](https://www.un.org).
Pre-Health Ideas During COVID-19

- Lend your eyes to solve tasks for blind and low vision people. Visit Be My Eyes.
- Sew emotional support blankets for Binky Patrol.
- Proofread ebooks for Project Gutenberg.
- Record audiobooks for Librivox.
- Transcribe historical documents for the Smithsonian.
- Send a card, letter or note once a week to someone undergoing chemotherapy. Apply at Chemo Angels.
- Provide learning and encouragement to children around the world via Skype and the Granny Cloud website.
- Test, evaluate or develop elements of the National Park Service’s online presence.
- Raise money in a virtual world with The American Cancer Society and Second Life.
- Develop video games to help App to Succeed teach youth in need how to make good financial decisions.
- Train others in technology to help overcome poverty with Right Here at Home.
- Share social media posts and important announcements for Operation Warm. Email Mary Ann.
- Look at satellite images of storm and help researchers predict cyclone behavior with Cyclone Center.
- Find different ways to help your community at Serve.gov.
- Find virtual volunteer opportunities at AllForGood.
- Provide needed support for people in crisis with the Suicide Prevention Line.
- Answer texts from people in crisis, bringing them from a hot moment to a cool calm through active listening, collaborative problem solving, and safety planning with CrisisTextLine.
- Make a different in the world with United Nations Virtual Volunteering.
- Use your computers or phones to help researchers sift through pictures, information and documents with Amnesty International.
Pre-Health Ideas During COVID-19

● Translate millions of words, manage projects, design web pages, and fundraise with TranslatorsWithoutBorders.

● Look into the volunteer National Medical Reserves Corps branch near you.

● Donate blood and volunteer to help the Red Cross address blood delivery and donation needs in your community; remote volunteering options exist for those at high risk.

● Acquire global health care experience through Foundation for International Medical Relief in Children

● Assist community partners with various projects with the AARNP.

● *Justice in June: a starting place for individuals trying to become better allies*

● Vox’s video “*The US Medical System Is Still Haunted by Slavery*”

Attend Online Fairs and Info Sessions

● Keep abreast of upcoming webinars and virtual sessions available to pre-medical and pre-dental applicants by visiting the following websites:
  ○ The [NAAHP](https://naahp.org) has the most comprehensive list of pre-health events around the country.

  ○ For a list of scheduled virtual webinars and online courses for pre-medical applicants visit [AAMC Webinar Schedule](https://www.aamc.org).

  ○ Visit [ADEA GoDental Events](https://www.aadea.org) for a list of scheduled events and webinars available to pre-dental applicants.
Pre-Health Ideas During COVID-19

Work on Life/“Adulting” Skills

• Do you know how to cook? Offer to cook and deliver a meal to neighbors trying to manage childcare and work obligations at home.

• Develop an at-home exercise routine (this is also good self-care!)

• Take up or revisit a craft or hobby -- origami, bike repair, gardening, the instrument or art supplies you put down at the end of high school...

• If you’ve never tracked your budget and expenses before, analyze your spending from the last year and develop a budget moving forward (see Nerdwallet tips)

Engage in Self-Care

• CDC Advice on Managing Anxiety and Stress during the COVID-19 Pandemic

• World Health Organization Mental Health Considerations During COVID-19 Outbreak

• Advice from thewirecutter.com

• Daily meditation and advice from experts via the folks at Ten Percent Happier: https://www.tenpercent.com/coronavirussanityguide

• The Calm app and website resources are available free to JHU university students, faculty, and staff when you register for an account using your JHU or JHMI email address. Calm offers daily and timed meditation instruction, issue specific meditation series, master classes by best life experts, sleep assistance, stretching videos, relaxing music and more. To register and create your free account, visit their website: https://www.calm.com/

News Stories Highlighting Student Efforts During the Pandemic

• With video calls and an army of volunteers, this 15-year-old is battling pandemic loneliness in nursing homes, Washington Post, October 2020

• Rutgers Medical School Students Mobilize to Support Health Care Workers, Tap Into Somerville, April 15, 2020

• Local Medical Students Team up to Provide Child Care for Health Workers, WAMU, April 15, 2020
Pre-Health Ideas During COVID-19

- **Clinical training on pause, UC med students find ways to be of service**, UC Newsfeed, April 9, 2020

- **MN “Covidsitters” organization developed by UMN medical students**, STAT News, March 31, 2020
