

IMPORTANT REMINDERS FOR EXTENDING MEDICAL COVERAGE WITH AN APPROVED MLOA

1

Understand Your Options

A JHU student who is currently enrolled in Wellfleet and begins an approved MLOA is eligible to extend medical coverage for an additional 3 months. Coverage extension begins at the END of the period in which you have already paid for. For example, if you go out on MLOA during the Fall semester, your regular coverage will end on 2/14. The extension will extend coverage until 5/14. If you go out on MLOA during the Spring semester, your regular coverage will end on 8/14 and you can request an extension until 11/14

2

Submit Extension Request

Fill out this form:

<https://forms.office.com/r/XtqCQDgUWQ> to request a 3 month extension for your medical insurance

3

Submit Payment

Once your extension request is approved, a charge of \$934 will be added to your SIS billing account

4

Continue to use your coverage

Now that your coverage has been extended and paid for, you can continue to make appointments and see your doctors

5

Understand Coverage End Date

Your coverage will end at the end of the extension period. Either 5/14 or 11/14, depending when your MLOA began. After this date, you will not be eligible to continue under the JHU Student Health Plan & will need to enroll in an outside policy.

Consider enrolling in a health can plan offered through healthcare.gov or marylandhealthconnection.gov.
